

All Sedation Patients

If you are receiving **GENERAL** sedation:

- You cannot eat or drink **ANYTHING** including ice, water, coffee, gum or candy for 8 hours prior to your procedure. You may take your medications with a small sip of water unless otherwise directed.
- You must have someone over the age of 18 that can take you home. They must remain in our office during the **entire procedure**.
- Please wear a short sleeve shirt.
- All female patients are required to take a urine pregnancy test in the office on the day of surgery.
- Please park your car on the North side of our building, near the handicapped ramp.
- It is important that you follow these directions to ensure you are ready on the day of surgery.
- Any questions, please feel free to call our office.
